

Corner flexibility to the MAX

The MR1 Vario Corner breathes new life into your corner inventory by giving you the ability to create 4 different angled corners, thereby greatly reducing the need to invest in bespoke corner elements for building MR1 roof systems!

Consisting of a heavy duty multicube, duo truss cube frame and 2 special machined aluminium plates (with predrilled holes), the Vario Corner equips you with the angles needed to make a 6, 8, 10 and even

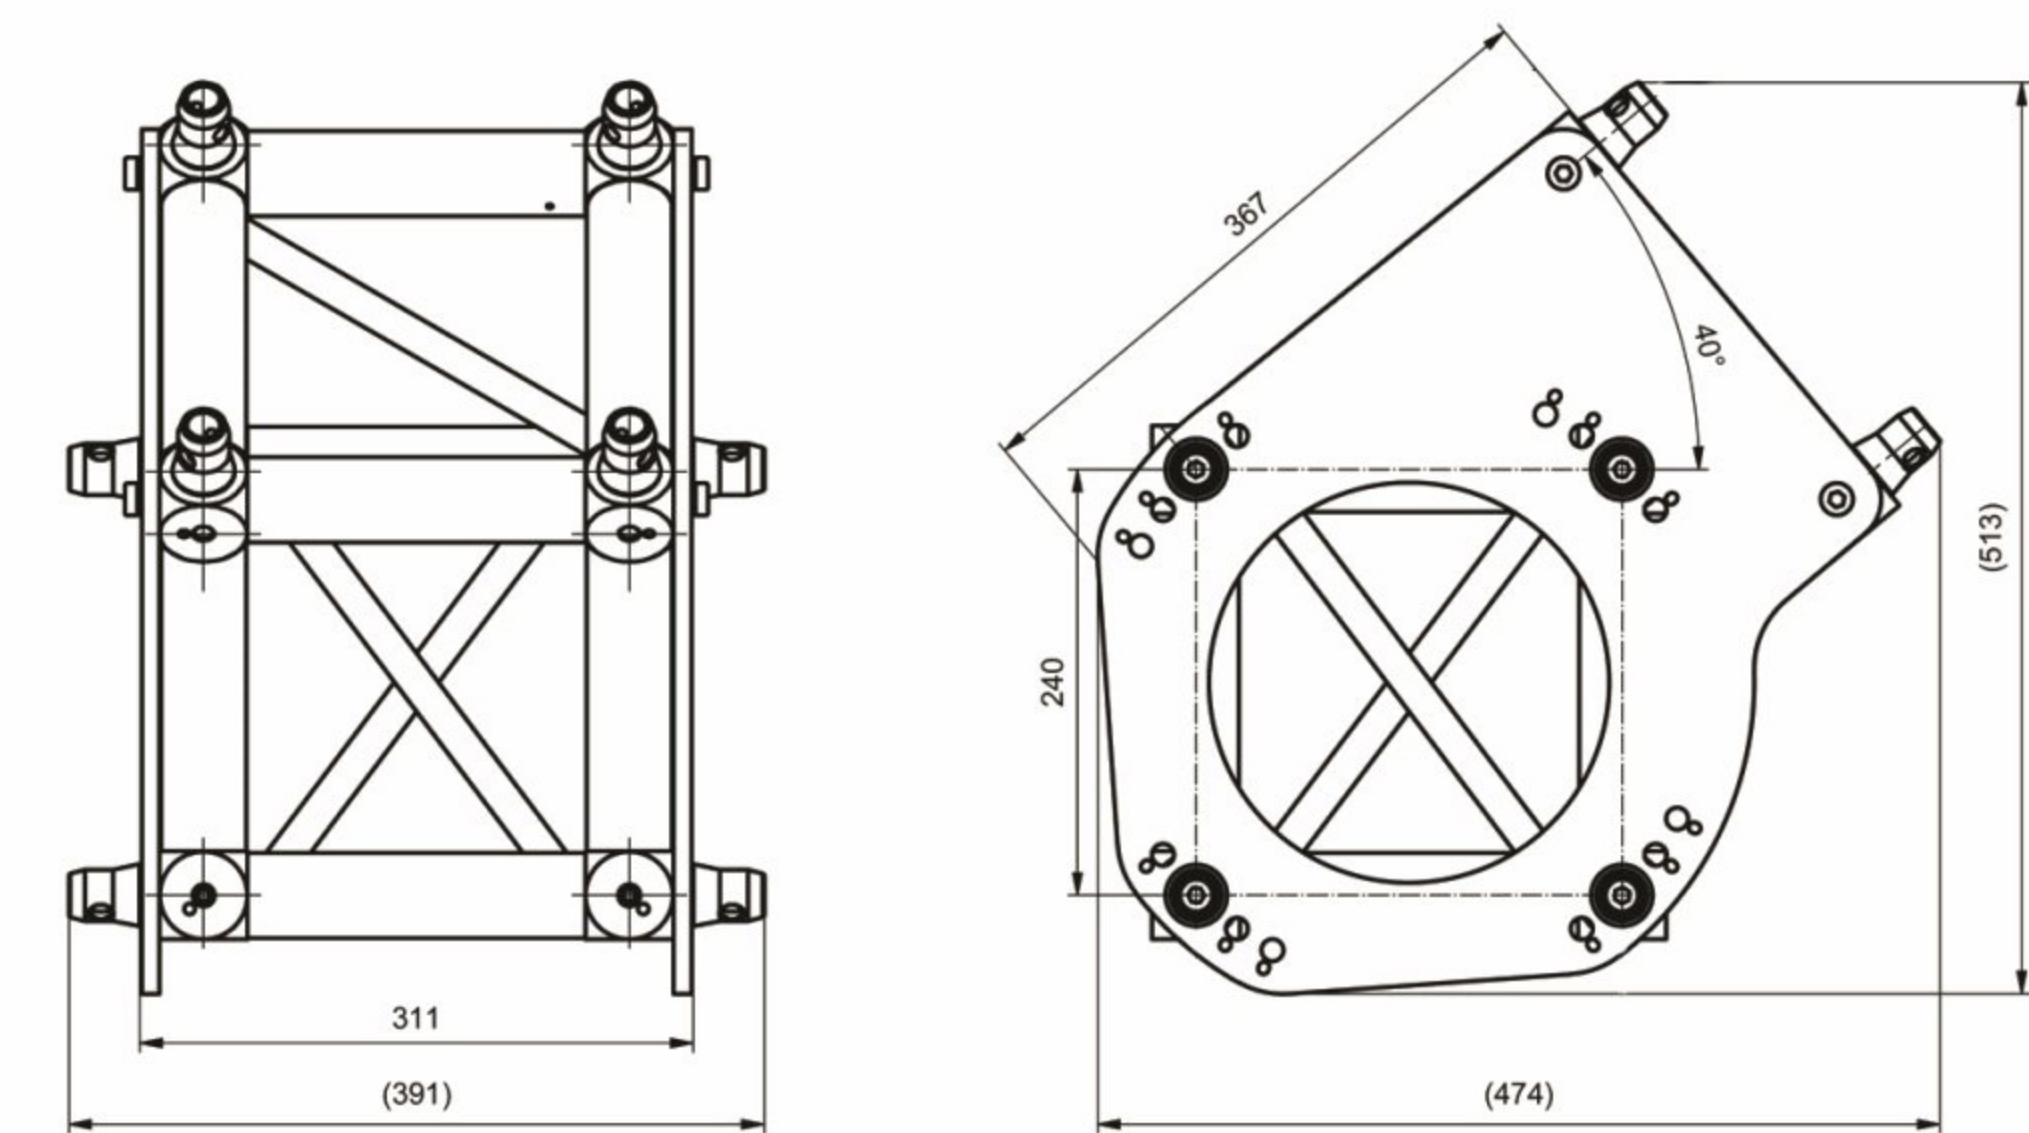

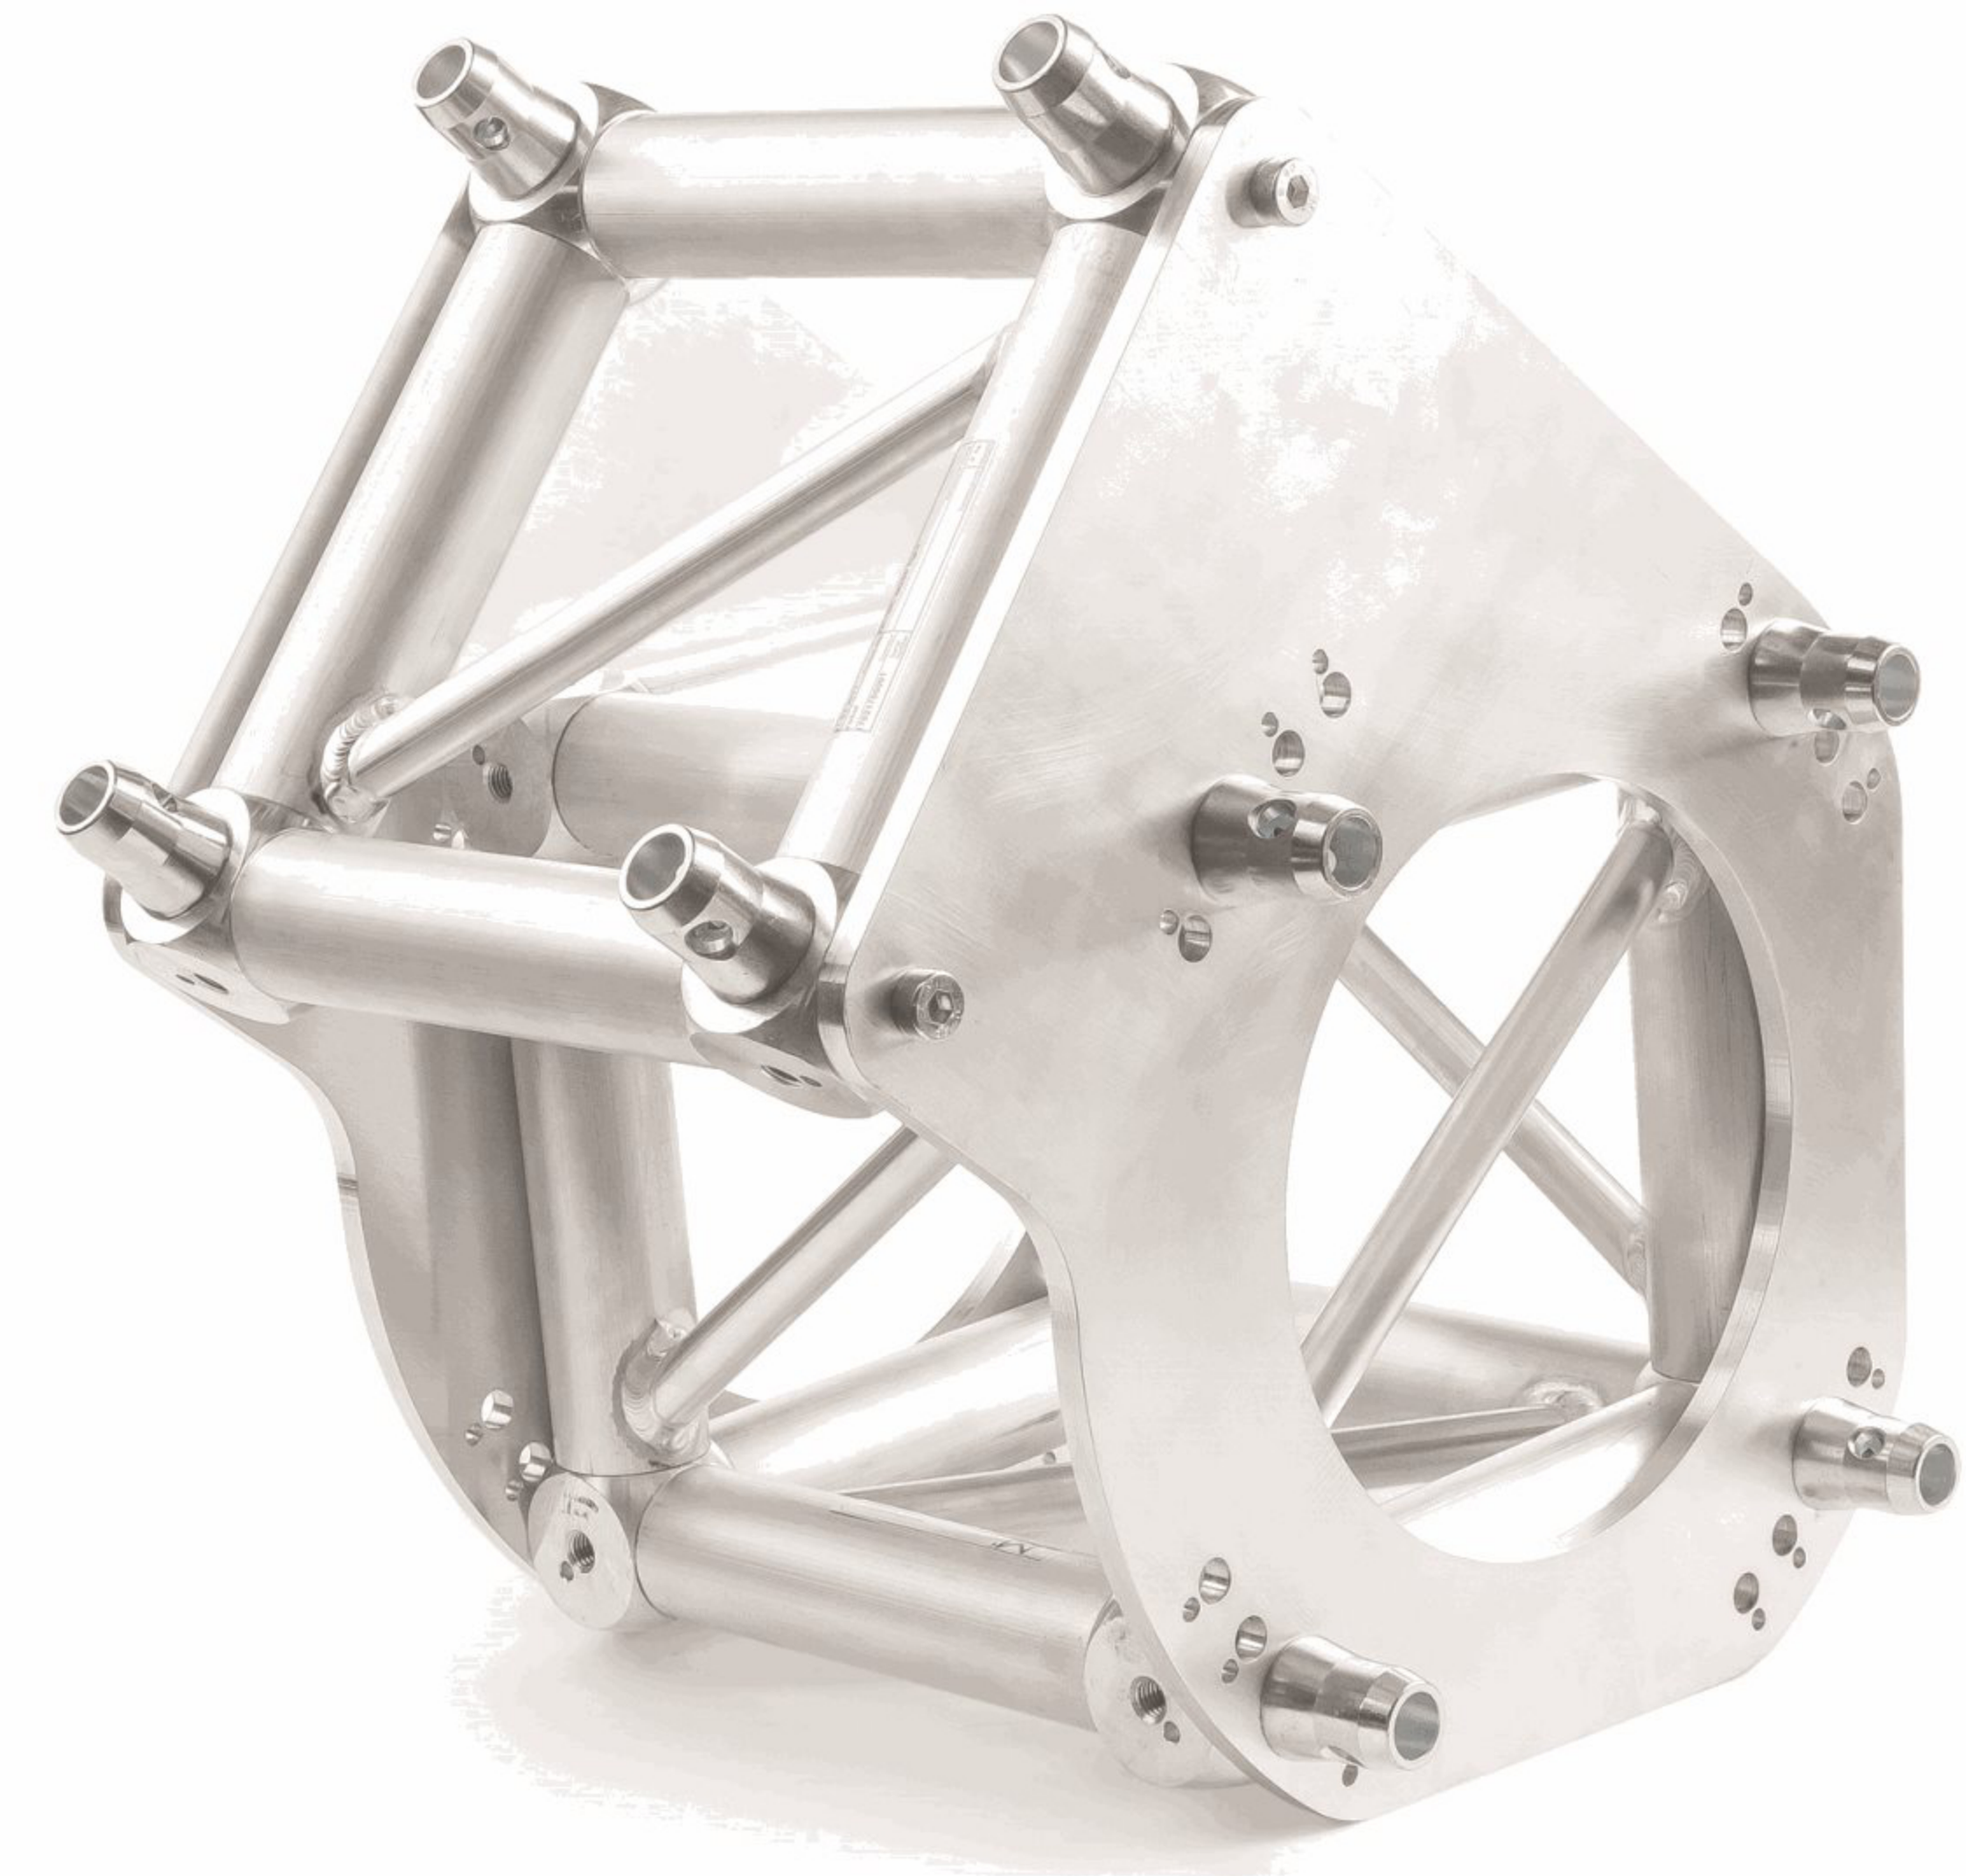

12 metre wide MR1 arched roof. The strength of the plate matches, and in some cases even exceeds, the required parameters to build these roof systems.

- Unique design gives you 4 corners for the price of 1
- Pre-drilled holes in plate allow for use in 6, 8, 10 and 12 metre wide MR1 roofs
- Minimal welding
- Industrial construction

MILOS MULTICUBES

MR1 VARIO CORNER

Technical specification:

Product code:	MR1 VC30B 40°	
Width:	391 mm	15.39"
Length:	474 mm	18.66"
Height:	513 mm	20.20"
Weight:	16.6 kg	36.6 lbs
Material:	Aluminium Alloy EN-AW 6082 T6	
Connectors:	CON25 / CON56 / CON63 / CON64
