
The Grand Opera Chair (Digital)

A chair optimised for all musicians, with a near vertical stack and electric adjustment of seat height, seat angle, back angle and roll. The Grand Opera Chair is the world's first electronically adjustable musicians chair, bringing them into the digital era.

RATstands

Product Features

The seat and back profiles are designed to provide the optimum seating position for all musicians. The back provides support in the upper lumbar region, encouraging an upright posture, whilst the horizontal seat with down turned front edge enables the musician to keep their feet flat on the floor. The highest quality foam provides firm but comfortable support.

The chairs seat height, seat angle, back angle and roll can all be adjusted using the switches on the side of the seat. Allowing the musician to adjust their position with minimal effort and whilst sat on the chair.

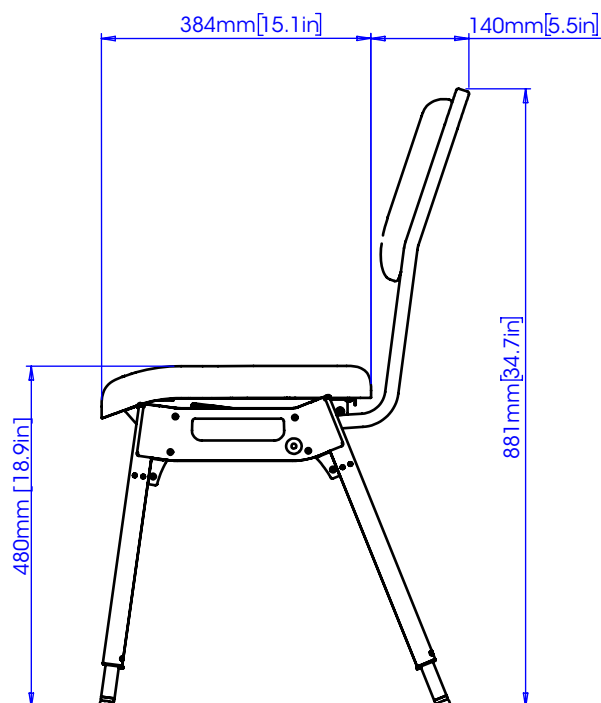

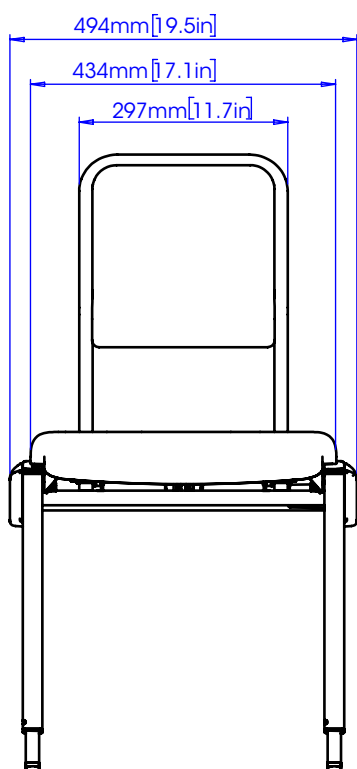

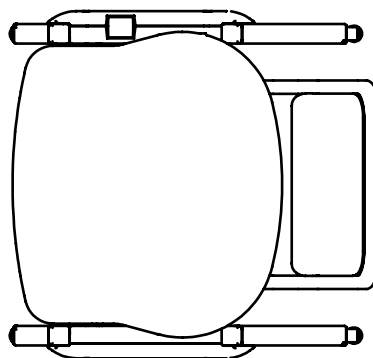

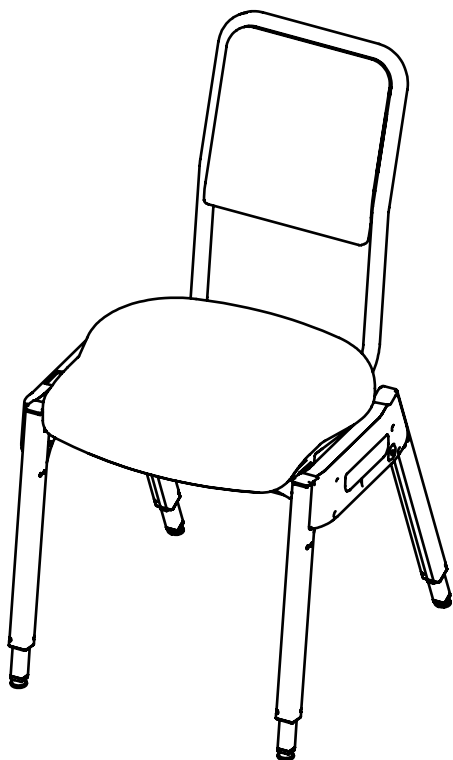

The digital LED display makes it straightforward for the musician to see their ideal sitting position, and remember the position numbers for when they are next using the chair.

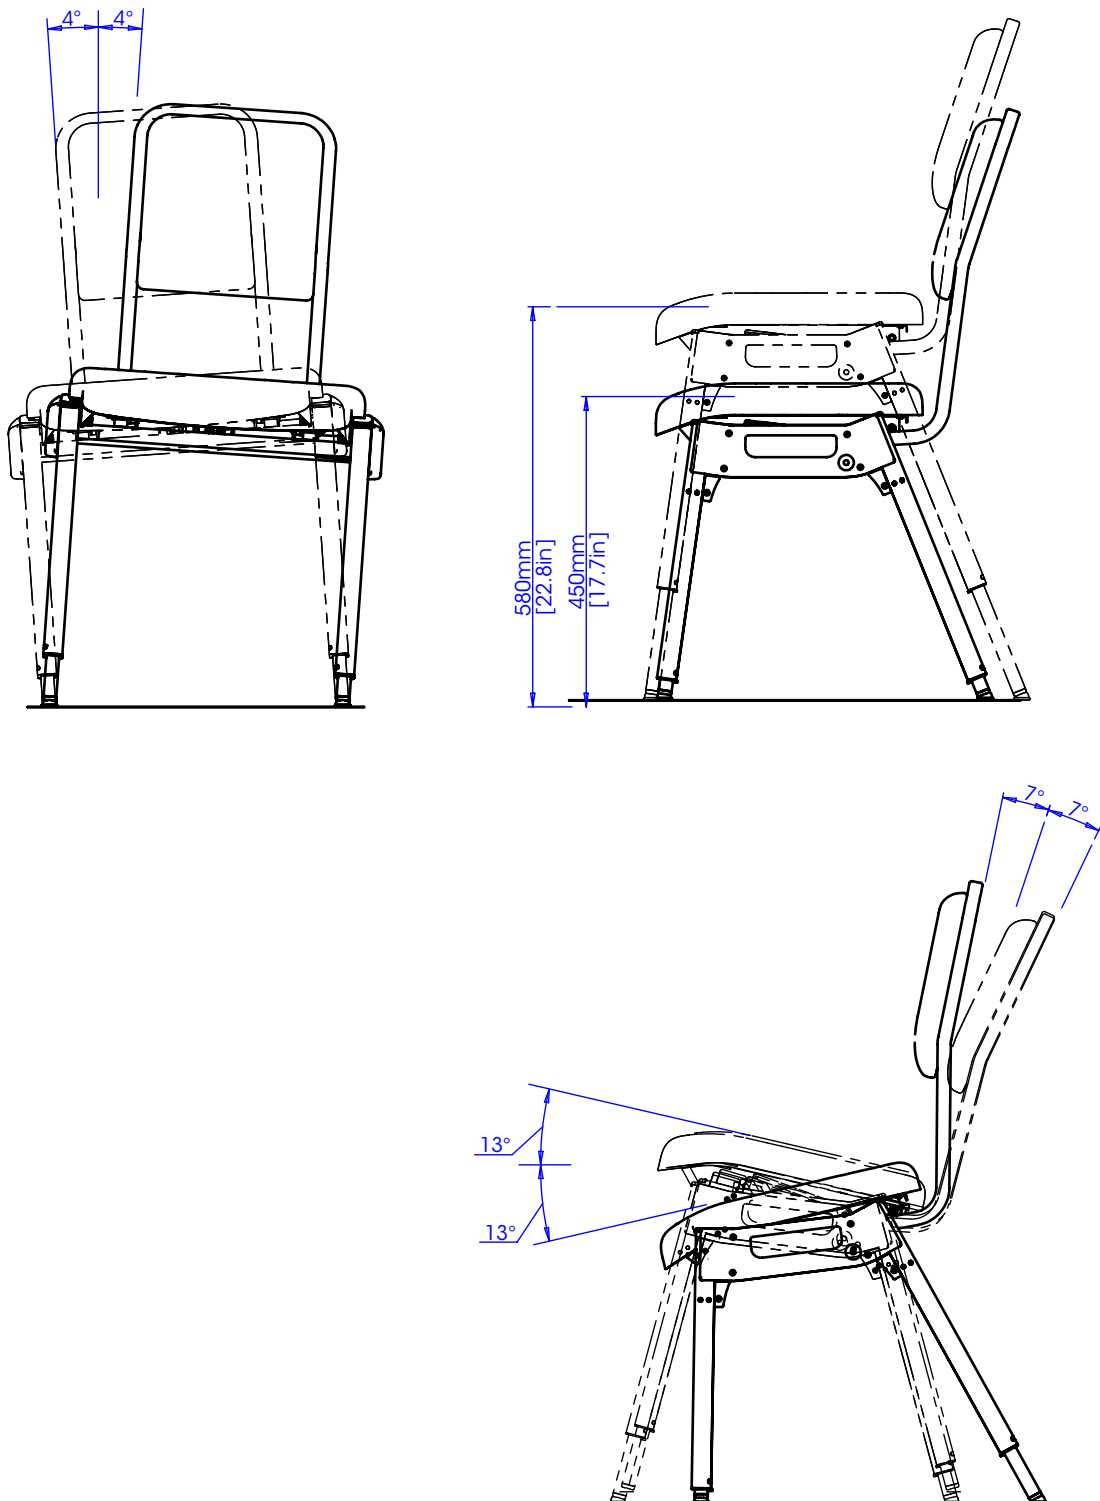

The chair is powered by a Li-ion battery which slots into the side of the chair. It has a long battery life and rarely needs to be recharged, depending on usage.

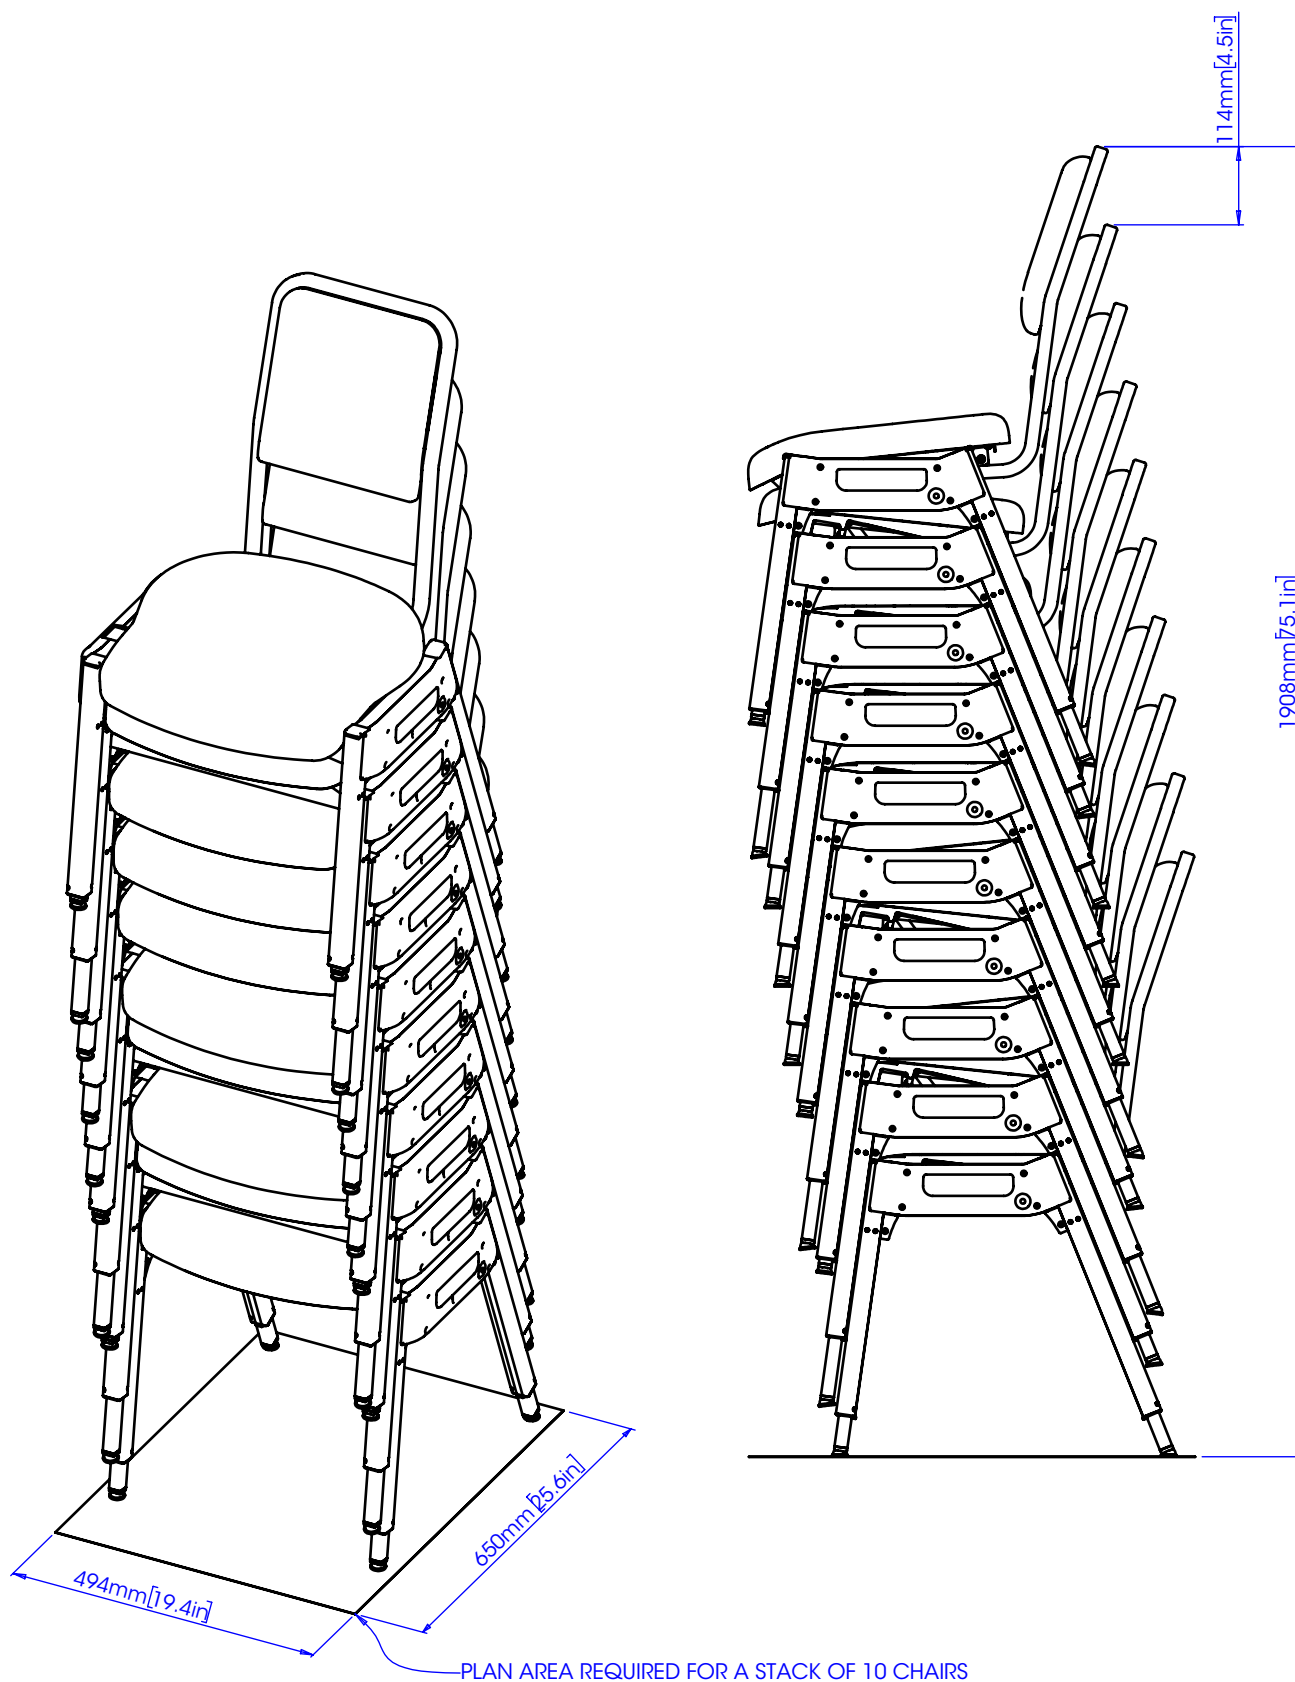

Opera chairs can be stored in a near vertical stack for compact storage. A storage cart is not required for this, but a trolley or dolly is available to assist in moving large stacks of chairs. Different sizes and variants of the chair can be mixed in a stack.

*Drawings show the chair in its default position.

*Drawing shows the maximum available adjustment.
It is not possible to reach all the limiting positions at the same time

Construction	
Structural parts	Steel & aluminium
Feet	Nylon
Seat and back	Plywood
Coating	Textured Polyester / Anodised Aluminium
Fabric	67% wool, 20% flame retardant viscose, 13% viscose
Seat upholstery foam	Poly ether polyurethane, 65kg/m3

Dimensions	
Overall depth	524mm [20.6in]
Overall width	494mm [19.4in]
Overall height	851-981mm [34.7 - 38.6in]
Seat height	450 - 580mm [17.7 - 22.4in]
Seat angle	-13° to +13°
Vertical stacking pitch	115mm [4.4in]
Plan area occupied by 10 chairs	650 x 494mm [25.3 x 175in]
Minimum height of seat	450mm [17.7in]
Maximum height of seat	580mm [22.8in]
Weight of product	10.6kg [23.4lbs]

General	
Warranty	2 years
Part number	304Q01
