DOUGHTY ENGINEERING LTD

World leading manufacturers of rigging, suspension and lifting equipment for the film, TV and theatre industry.

Doughty Engineering is a world leading manufacturer of rigging, suspension and lifting equipment for the film, TV and theatre industry. From stage lighting clamps, to curtain track and studio rail, tank traps, pantographs, boom arms, brackets, and transporter trolleys, we can provide it all. Our industry knowledge, outstanding customer service and high standards have made us the go-to brand for entertainment professionals, providing off the shelf or bespoke solutions to even the most demanding and challenging of projects.

Over the years, cheaper imitations have come to market but with Doughty you can be guaranteed of a quality and standard that cannot be replicated. We design and manufacture all our products in-house at our factory in Ringwood, Hampshire in the UK which means we have complete control over every item that comes off the production line. So, if it doesn't say Doughty on the outside, it's not Doughty on the inside!

PRODUCT SPOTLIGHT

250Kg Rigging Bar

Manufactured from solid high tensile aluminium, the Rigging Bar features two slimline aluminium half couplers to fit 48mm to 51mm diameter truss tubes and a 'Bow Nut' to accommodate larger hooks. Suitable for truss with tube centres from 239mm to 433mm. It is designed to mount on the top or the bottom of box truss to provide a stand-off rigging point. Ideal for hanging video walls, but you can also move the bow nut to the centre and it can be used as a truss adaptor. Available in a powder coated black finish.

Custom sizes available to special order.

TÜV APPROVED
